2017 VINTAGE: An exceptionally premature and confidential harvest

2017 Vintage engendered climatic records which caused a particularly premature harvest with the beginning of the harvest on August 18<sup>th,</sup> with our white grapes. It's also one of the smallest harvests of these last forty years, with average yields, around 19 hl/ha. This is mainly due to important "Coulure" phenomena and significant hydric deficit.

Despite these extreme conditions, our old vines did not suffer too much permitting to produce wines with a very good balance, beautiful fruit, freshness and silky tannins.

Whites have superb freshness, with beautiful elegance and great complexity.

Harvest started on August 30<sup>th</sup> for the Syrah, on September 4<sup>th</sup> for the Grenache and on September 20<sup>th</sup> for Mourvèdre.

Hand picking with sorting in the vineyard and then in cellar.

95% of De-stemming (5% in whole clusters) and vinification separately in concrete tanks with wild yeasts. Pump-over and delestages are made during all the grape maceration (28 to 32 days).
